Residential High Efficiency Rebates

Laclede's Residential High Efficiency Rebate Program provides rebates to residential owners and customers for the installation of high efficiency heating systems and thermostats.

Owners of, or customers living in, an individually metered dwelling unit, are eligible to participate in this program and must apply for rebates through the Company with or without the assistance of your heating, ventilating, and air conditioning ("HVAC") contractor. Individual dwelling units, as determined by account number, whether owner-occupied or rental property, are eligible for a maximum of two heating system rebates and two ENERGY STAR thermostat rebates under this program.

Owners of multiple individually metered dwelling units are limited to a maximum of 50 heating system rebates and 50 ENERGY STAR thermostat rebates during one program year.
